Work Experience

HS & CO PVT LTD, Arif Wala, Pakistan

April 2025 – Present

IT Manager (Suthra Punjab Arifwala)

- Responsible for maintaining and supporting the government-provided portal used to monitor vehicle activity via GPS trackers installed in the fleet.
- Ensured smooth operation of the tracking system, identifying and resolving technical issues promptly to maintain real-time monitoring.
- Assisted in handling and resolving public complaints related to solid waste management, coordinating responses through the portal system.
- Collaborated with internal teams and government representatives to ensure data accuracy and timely updates on the portal.
- Supported the company's mission in executing solid waste management contracts efficiently by leveraging technology to track and improve service delivery.
- Conducted training sessions for new staff and government users on effectively navigating and utilizing the tracking portal.
- Developed and currently maintain the company's portfolio website to showcase services, achievements, and project updates.

BookKaru PVT LTD, Lahore, Pakistan

September 2024 – March 2025

Front-End Website Developer

- Designed and developed responsive web pages for various projects from scratch using HTML, CSS, JavaScript, jQuery and React ensuring cross-browser compatibility and mobile responsiveness.
- Utilized the Bootstrap framework to create dynamic, user-friendly layouts, ensuring consistent styling and functionality across all pages.
- Collaborated with the development team to launch new projects, adhering to project requirements and deadlines.
- Conducted thorough testing of web pages and functionalities to identify and resolve bugs, ensuring seamless performance and user interaction.
- Played a key role in maintaining and updating existing projects to meet evolving business needs.

Freelancer, Arifwala, Pakistan

April 2024 – August 2024

Full-Stack Website Developer

- Utilized GitHub for version control and continuous deployment, maintaining a smooth workflow across development and production environments
- Leveraged the Bootstrap framework to deliver visually appealing and functional layouts tailored to client requirements.
- Communicated directly with clients to gather requirements, provide progress updates, and deliver completed projects on time.
- Conducted extensive testing to ensure cross-browser compatibility, mobile responsiveness, and adherence to best practices.
- Provided post-launch support, including updates and enhancements, to maintain and improve delivered projects.

Tech Step, Sahiwal, Pakistan

December 2023 – March 2024

Full-Stack Website Developer

- Full-stack development of web applications, from initial design and front-end development using React and Bootstrap to back-end functionality with PHP and SQL, ensuring smooth end-to-end project flow.
- Worked on optimizing SQL queries and database structures, improving application performance and reducing load times, ensuring scalability for future growth.
- Led efforts in identifying and resolving bugs in both front-end and back-end code, significantly improving the performance and reliability of the applications.
- Developed lightweight, customizable CMS solutions for clients, allowing them to easily manage and update content on their websites without technical expertise.

AMZ PVT LTD, Sahiwal, Pakistan

October 2021 – October 2022

Virtual Assistant

- Managed Amazon Seller Central account, including product listing, inventory tracking, and order processing to ensure smooth operation and timely fulfillment.
- Handled customer inquiries and issues through Amazon's messaging system, providing prompt and professional responses to ensure high customer satisfaction.
- Coordinated inventory management, ensuring stock levels were accurately updated and shipments were processed efficiently.
- Analyzed sales performance and assisted in the creation of reports to help with decision-making and strategy development for sales growth.
- Monitored Amazon policies and best practices, ensuring compliance with platform requirements and staying up-to-date with any changes to optimize product listings and account performance.
