WORK EXPERIENCE

Manager M.I.S / I.T (Suthra Punjab Arifwala) — HS & CO Pvt Ltd

Apr 2025 – Present

Arif Wala, Pakistan | haziqsons.com

- Maintained and supported a government-provided portal monitoring vehicle activity via GPS trackers installed across the fleet.
- Ensured smooth operation of the tracking system, identifying and resolving technical issues to maintain real-time monitoring.
- Handled and resolved public complaints related to solid waste management, coordinating responses through the portal system.
- Collaborated with internal teams and government representatives to ensure data accuracy and timely portal updates.
- Conducted training sessions for new staff and government users on navigating and using the tracking portal.
- Developed and currently maintain the company's portfolio website showcasing services and project updates.

Front-End Website Developer — BookKaru Pvt Ltd

Sep 2024 – Mar 2025

Lahore, Pakistan | bookkaru.com

- Designed and developed responsive web pages from scratch using HTML, CSS, JavaScript, jQuery, and React, ensuring cross-browser compatibility and mobile responsiveness.
- Built dynamic, user-friendly layouts with Bootstrap, maintaining consistent styling and functionality across all pages.
- Collaborated with the development team to launch new projects on schedule and to requirements.
- Conducted thorough testing to identify and resolve bugs, ensuring seamless performance and user interaction.

Full-Stack Website Developer — Freelance

Apr 2024 – Aug 2024

Sahiwal, Pakistan

- Used GitHub for version control and continuous deployment, maintaining a smooth workflow across development and production environments.
- Delivered visually appealing, functional layouts tailored to client requirements using Bootstrap.
- Communicated directly with clients to gather requirements, provide progress updates, and deliver projects on time.
- Conducted extensive testing for cross-browser compatibility, mobile responsiveness, and best practices.

Full-Stack Website Developer — Tech Step Pvt Ltd

Dec 2023 – Mar 2024

Sahiwal, Pakistan / techstep.solutions

Built web applications end-to-end, from front-end development in React and Bootstrap to back-end functionality with PHP and SQL.

- Optimized SQL queries and database structures, improving application performance and reducing load times.
- Identified and resolved bugs across front-end and back-end code, improving performance and reliability.
- Developed lightweight, customizable CMS solutions enabling clients to manage site content without technical expertise.

Virtual Assistant — AMZ Pvt Ltd

Oct 2021 – Oct 2022

Sahiwal, Pakistan

- Managed Amazon Seller Central account, including product listing, inventory tracking, and order processing.
- Handled customer inquiries via Amazon's messaging system, ensuring high customer satisfaction.
- Analyzed sales performance and assisted in creating reports to support decision-making and strategy.
